

I Will Abide

Way down deep in the ocean far far below

My sins have been buried forevermore

As the east is from the west

So great is God's forgiveness

There's a peace in my heart, I'm finally free

A hope and a future is waiting for me

For I know that my life

Has been saved by grace

I will abide in the shelter of His love

In the shadow of His wing I will hide

His mercies are new everyday that I live

I will live, I will live

There's a banquet in heaven waiting to begin

And my name is reserved at the table with Him

On that day I will enter

The marriage supper of the Lamb
